PROFESSIONAL SUMMARY

Frontend Developer building production web apps with React.js, Next.js, and TypeScript. Ships responsive interfaces, reusable component systems, and type-safe forms, and integrates REST APIs on Agile teams. Also delivered a full-stack product with Node.js, Express.js, and MongoDB, and uses AI-assisted development (Cursor, Claude) with careful review.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, PWA.
- **UI & Styling:** Tailwind CSS, Shadcn UI, Material UI, Ant Design, Bootstrap
- **State Management:** TanStack Query, Redux Toolkit, Zustand, Context API
- **Forms & Validation:** TanStack Form, React Hook Form, Formik, Zod, Yup
- **APIs & Auth:** REST APIs, Axios, NextAuth.js, JWT
- **Backend:** Node.js, Express.js, MongoDB, Mongoose
- **Tools:** Git, GitHub, GitHub Actions, Vercel, VS Code, Jira, ClickUp, Cursor
- **Quality:** Core Web Vitals, Lighthouse, Chrome DevTools, React DevTools
- **i18n:** next-intl, react-intl
- **CS:** Data Structures, Algorithms, C++, SQL

EXPERIENCE

Frontend Developer — Blue Ribbon (Hybrid) Nov 2025 – Present

- Develop & maintain production features in React.js, Next.js, and TypeScript, from staging to release, with backend and QA.
- Built 25+ reusable UI components, which sped up delivery and kept the interface consistent across modules.
- Completed 180+ tasks (features and bug fixes) in production, improving stability and reliability.
- Migrated the live panel from Ant Design to Shadcn UI and from Formik to TanStack Form, and adapted it to a new backend.

Frontend Intern — Elevate Tech (Remote) Mar 2025 – Nov 2025

- Built 15+ reusable React and Next.js components used across Agile sprint deliverables.
- Integrated 15+ REST API endpoints with Axios for data fetching and form submission.
- Implemented type-safe forms in TypeScript and localized the UI with next-intl (2 languages).
- Took part in 15+ code reviews per sprint, improving quality and reducing merge conflicts.

PROJECTS

- **Saraha — Anonymous Messaging (Full-Stack)** (Next.js, React.js, TypeScript, Tailwind CSS, Shadcn UI, TanStack Query, Zod, NextAuth.js | Node.js, Express.js, MongoDB, JWT, Cloudinary) **[Frontend]** | **[Backend]** | **[API]** | **[Demo]**
  Built a deployed messaging app with public share links, an infinite-scroll inbox, anonymous and signed-in send with image uploads, and replies, plus an Express REST API with JWT auth, email OTP, Google login, and MongoDB.
- **Flower App — Online Store** (Next.js, TypeScript, NextAuth.js, next-intl) **[Code]** | **[Demo]**
  Built a store with 2 user roles via role-based auth, type-safe forms, multi-language, and a responsive UI across 10+ pages.
- **Task Management — Full-Stack Web App** (Next.js, Prisma, Tailwind CSS, Shadcn UI) **[Code]** | **[Demo]**
  Created a full-stack project management app with 4 CRUD modules, JWT auth, Prisma ORM, and a responsive UI.
- **Online Exam — Examination System** (Next.js, NextAuth.js, next-intl, TypeScript) **[Code]** | **[Demo]**
  Developed a secure exam portal supporting 3 protected routes with reliable form handling and session-based access control.
- **Fitness App** (React.js, TypeScript, Tailwind CSS, react-intl) **[Code]** | **[Demo]**
  Built a fitness app supporting 2 languages with a multilingual UI, secure authentication, and 5+ type-safe forms in Agile collaboration.
- **Fresh-Cart — E-commerce Platform** (React.js, Context API, Formik, Yup) **[Code]** | **[Demo]**
  Built a client-side app with 20+ product listings, React Context API for state, Axios for API integration, and Formik/Yup form validation.

EDUCATION

B.Sc. in Computer Science — Menoufia University, Egypt (Graduated July 2025) (Algorithms, OOP, DBMS, Software)

CERTIFICATIONS & TRAINING

Next.js Training Program — Elevate Tech
Frontend Diploma (React.js) — Route Academy

LANGUAGES

Arabic: Native
English: Upper-Intermediate
